

The Willi Hennig Society

## Twelfth International workshop in Phylogenetic Methods

23 - 27 May, 2011.

Posgrado,  
Instituto de Ecología, AC.  
Xalapa, Ver (México).

### Lecturers:

The workshop will be presented by a combination of at least four or five professors, all members of WHS. John W. Wenzel (Carnegie Museum of Natural History, coordinator).

### Goals:

The workshop will provide instruction on theory and methodological experience. It will allow participants with basic knowledge of phylogenetic methods to grasp advanced ideas and methods for the analysis of morphological and DNA sequence data.

### Cost:

Cost for students is US\$300, and for non students is US\$400. This only includes registration fee. It does not include transportation, accommodations or food.

### Fellowships:

A limited number of Fellowships will be offered by the WHS on a competitive basis. WHS Fellowships will cover registration fee. Enrollees will be responsible for cost of transportation, accommodation, and meals.

### Admission:

The workshop will be limited to 25 participants. Complete applications will be evaluated competitively.
